Call. Mr. Starr Cadwallader of Cleveland, Ohio, Division Manager and Mr. Dickson, director of the Roll Call were present.

In urging the need of enrolling as many members as possible, Mr. Victor Clark, Wilson Park, said the work did not end with the war but is still going on all over the world and chapters are urged to double their membership as the funds to carry on the work are henceforth to be derived from the membership dues of \$1.00 a member. The Red Cross is still at work in Poland and many of the Balkan states and in their work over there they are doing a great service for this country in the way of keeping back typhus and many other menaces which exist in these countries. \$1.00 is a small sum to give in such a cause but in the giving of it we are made a part of the great work going on. The local work at the present time consists largely in services for the soldiers and in this the Red Cross co-operates with the government and is able to bring about many benefits for some of these men that would not get otherwise, in the way of Vocational Education, Compensation and War Risk Insurance.

The Red Cross is the one World-Wide organization whose object is service to humanity and we can all be a part of this great organization for \$1.00. The Roll Call is yet some weeks off but it is now to early to decide to be a member for another year.

RHEUMATISM

LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours. Every druggist in this country is authorized to say to every rheumatic sufferer that if two bottles of Allenburh, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment. Allenburh has been tried and tested for years, and really marvellous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless. Mr. James H. Allen, the discoverer of Allenburh, who for many years suffered the tortures of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenburh decisively conquers this worst of all diseases, and he has instructed your druggist to guarantee it in every instance.—Adv.
